

Brent Council Annual Governance Statement 2024/25

1. Scope of Responsibility

- 1.1 Brent Council ('The Council') is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded, properly accounted for, and used economically, efficiently and effectively. The Council also has a duty under the Local Government Act 1999, to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness. The Council is responsible for ensuring that there is a sound system of governance (incorporating the system of internal control). This includes 'group activities' which in this context, refers to the activities and operations conducted by the Council and its wholly owned subsidiaries (I4B and FWH). The Council prepares and presents a set of group accounts, and therefore the AGS, which accompanies those accounts, must reflect the Council's governance arrangements over those subsidiaries.
- 1.2 Ensuring sound governance in group activities means that the Council is responsible for maintaining effective oversight, accountability and control mechanisms across all of its wholly owned subsidiaries/entities to ensure they align with the council's policies, goals and regulatory requirements.
- 1.3 In discharging this overall responsibility, the Council is responsible for putting in place proper arrangements for the governance of its affairs and facilitating the effective exercise of its functions, which includes arrangements for the management of risk.
- 1.4 The Council has approved and adopted a Code of Corporate Governance, which is consistent with the principles of the International Framework: Good Governance in the Public Sector. The statement is included in the annual review of the Constitution undertaken each year. A copy of the Council's code is contained in Part 5 of the Council's Constitution and can be found on our website:
<https://data.brent.gov.uk/dataset/2jgp6/constitution-brent-council>
- 1.5 This statement explains how the Council has complied with the Code and also meets the requirements of the Accounts and Audit (England) Regulations 2015, Regulation 6(1b), which requires all relevant bodies to prepare an annual governance statement.
- 1.6 To ensure all statutory requirements have been met the statement has been produced in accordance with the CIPFA Delivering Good Governance Framework 2016.

2. The Purpose of the Governance Framework

- 2.1 The governance framework comprises the systems and processes, culture and values by which the authority is directed and controlled and the activities through which it accounts to, engages with and leads its communities. It enables the authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate services and value for money. The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an on-going process, designed to identify and prioritise the risks to the achievement of the Council's policies, aims and

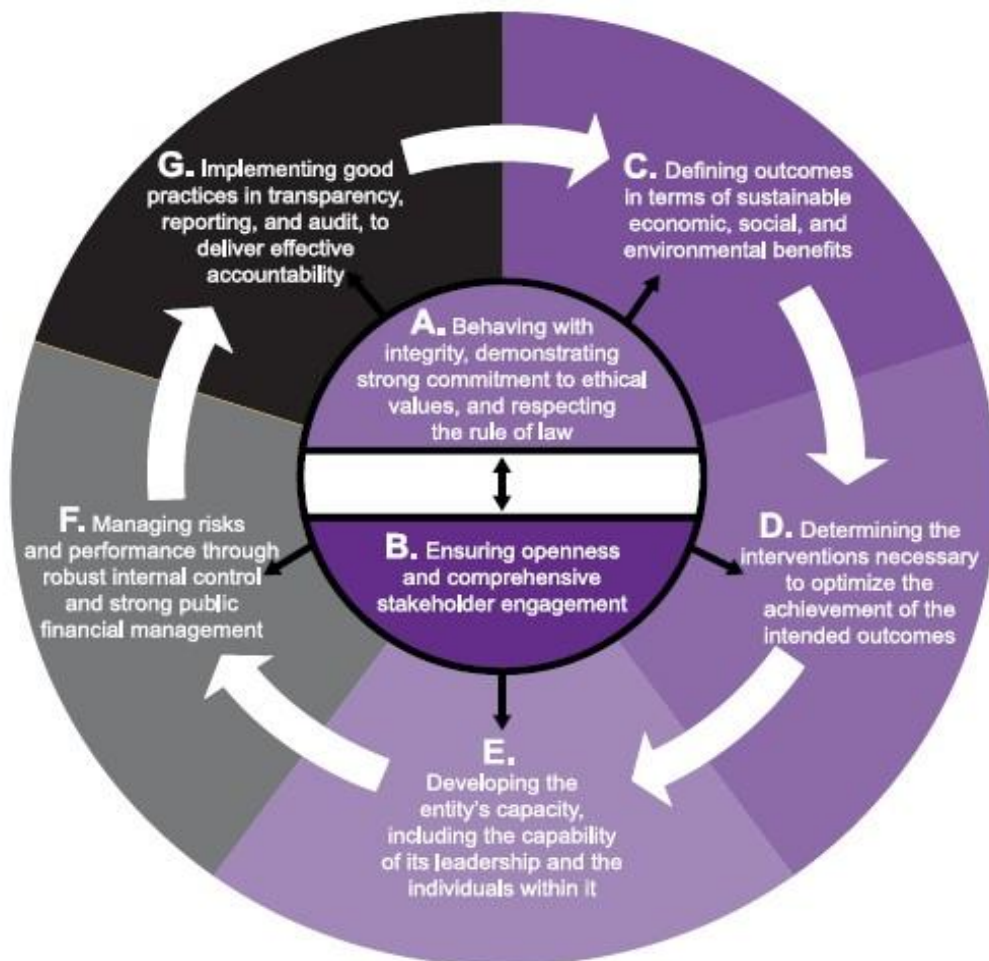

objectives, to evaluate the likelihood and potential impact of those risks being realised, and to manage them efficiently, effectively and economically.

- 2.2 The governance framework has been in place for the year ended 31 March 2025 and up to the date of approval of the statement of accounts.

3. **The Governance Framework**

- 3.1 The key elements of the systems and processes that comprise the Council's governance arrangements are based on the seven core principles of the CIPFA/SOLACE Governance Framework, which are set out in the diagram below.

- 3.2 The arrangements for reviewing the effectiveness of the governance framework are detailed in section 4 of this statement.

- 3.1 **Principle A: Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law.**

- 3.1.1 The Constitution sets out how the Council operates, how decisions are made and the policies that are followed to ensure that these are efficient, transparent and accountable to local people. The Constitution comprises six parts, which set out the basic rules for governing the Council's business, as well as detailed procedures and codes of practice.

- 3.1.2 The Constitution is regularly reviewed and was last updated in May 2025. The Constitution sets out the responsibilities of both members and officers. In particular, the Council has identified the following six statutory Chief Officer posts:

Legislation	Statutory Post	Officer
S4 Local Government and Housing Act 1989	Head of Paid Service	Chief Executive
Section 151 Local Government Act 1972	Section 151	Corporate Director of Finance and resources
S5 Local Government and Housing Act 1989	Monitoring Officer	Corporate Director of Law & Governance (from 1 April 2025, the Director of Law)
S18 Children Act 2004	Director of Children's Services	Corporate Director Children and Young People (from 1 st April 2025 Corporate Director, Children, Young People and Community Development)
S6 Local Authority Social Services Act 1972	Director of Adult Social Services	Director Adult Social Care
Health and Social Care Act 2012	Director of Public Health	Director of Public Health (from 1 st April 2025, Director, Public Health and Leisure)

- 3.1.3 A Scheme of Delegation sets out the powers delegated to officers as part of the Constitution. The Financial Regulations are also part of the Constitution, together with the Code of Corporate Governance and the Contract Standing Orders. Changes to the Constitution (other than minor changes which can be approved by the Corporate Director of Law & Governance or from 1 April 2025 the Director of Law) are approved by the Council. All changes are published on the external website.
- 3.1.4 The Member Code of Conduct is set out in the Constitution, together with other codes such as the Planning Code of Practice and Licensing Code of Practice. These are included in the annual constitutional review.
- 3.1.5 A register of member interests and gifts and hospitality is maintained, and entries are reported quarterly to the Audit & Standards Advisory Committee.
- 3.1.6 All Members (new and re-elected) receive mandatory training every four years (last delivered in 2022). This includes Standards and the Code of Practice, Corporate Parenting & Safeguarding Children, Safeguarding vulnerable adults, Equalities Training and Data Protection and Information Security*. In addition, mandatory committee training is provided for Planning, Alcohol and Entertainment Licensing, Scrutiny induction, Audit & Standards Committee and the Audit & Standards Advisory Committee induction training and Brent Pensions Fund – Approach to responsible investment. Training updates, and Monitoring Officer Advice Notes (MOAN) are

published in the Members Bulletin and the Hub which is an online platform where members access uploaded information and training resources relevant to them.

- 3.1.7 Periodically, standards and Code of Conduct induction training is also provided to any Councillors joining the Council mid-term following a by-election. For face-to-face training sessions, reminders are sent via email, calendar invitations, text messages and, on some occasions, direct telephone calls to Members. The same reminder process is employed for re-run(s) of sessions, where applicable to take account of personal circumstances like work commitments and childcare arrangements. Since 2020 the Audit & Standards Advisory Committee receive regular updates on Members who had not completed the mandatory training sessions.
- 3.1.8 All staff, in particular managers, are responsible for ensuring that laws and regulations are complied with and that the Council's policies are implemented in practice. Corporate Directors, Directors and Heads of Service are responsible for monitoring implementation of the Council's policies. The requirement to comply with Council policies is part of the contract of employment of the Council's employees.
- 3.1.9 The Council has a number of key governance related policies. Officers are made aware of their responsibilities through general communications, such as Weekly Round Up, manager briefings, staff events and via the induction process.
- 3.1.10 The Council operates a robust anti-fraud and corruption culture and has an established Anti-Fraud and Bribery Policy and a separate Whistleblowing policy. These policies set out the duties of all staff in relation to acting with honesty and integrity and the reporting suspected fraud. The Anti-Fraud and Bribery Policy is published on the Council's webpage, along with details on how members of the public can report suspected fraud and corruption.

3.2 Principle B: Ensuring openness and comprehensive stakeholder engagement.

- 3.2.1 The Strategy and Partnerships service is responsible for supporting statutory local partnership arrangements (Health and Wellbeing Board, Integrated Care Partnership Board, (ICP) Safeguarding Adults Board, Multi Agency Safeguarding Children Partnership and Children's Trust). The ICP Board covers services for all ages, and its priorities have been developed through engagement across the system, including the voluntary and community sector, and are signed off by the Health and Wellbeing Board. The team also supports a number of non-statutory partner organisations through a network of forums such as, the Disability, Multi-Faith Forum and Pensioners Forums. In collaboration with CVS Brent, previous thematic networks aligned to borough wide priorities such as health and housing will be reviewed. The Community Engagement team co-ordinates a broad range of collaborative activities, which stem from the council's engagement with local public, private, voluntary sector organisations and faith groups. All consultations are facilitated via The Council's 'Have Your Say Portal' - our online consultation and engagement hub. Recent examples include consultation about proposed changes to Brent's Council Tax Support Scheme, Neasden Open Space consultation, adult social care transport eligibility consultation. Brent Connects is a space for local communities to come together and discuss the things that matter most to them. The five Brent Connect forums cover specific geographical areas made up of wards. Each area is led by two local councillors in the position of Chair and Vice Chair. Recent community led discussions facilitated via Brent Connects include South Kilburn Trust, Stepping to Success, Air Network. Other examples of collaboration

include Community Cohesion Days, run in partnership with local community groups. To support principles of open and effective stakeholder engagement, the Council launched an Engagement network in February 2025, a Consultation Best Practice Guide has been developed through the network.

- 3.2.2 The Council incorporates good governance arrangements in respect of partnerships and other joint working and ensures stakeholder engagement is reflected across the Council's overall governance structures.
- 3.2.3 At a service area level, the objectives of partnerships are documented in the Service Plans and within contract documentation.
- 3.2.4 With regard to equity, diversity and human rights duties, these are embedded in the budget setting and business planning process. Templates for each require that officers and members take into consideration in an appropriate manner the equity, diversity and inclusion impact of proposed decisions. The Council's approach is to embed equity, diversity and inclusion within all of its work so that equality considerations are part of the day-to-day management. In addition, equality considerations form an integral part of the budget setting process, where savings proposals are subject to an initial equalities screening and where relevant a full equalities impact assessment as well as a cumulative assessment to understand the potential cumulative and compounding impact on groups with a protected characteristic that arise from either changes across a range of services or a group of savings proposals. Consultation on the Equity, Diversity and Inclusion strategy 24-27 has been completed and was approved by Cabinet in April 2024.
- 3.2.5 The Council adopted a Black Community Action Plan in July 2020 in response to the heightened concerns and to address the inequalities that our black communities continue to face. The aims of the plan, which the local community helped us to create, include building sustainable communities with Black leaders playing a role in decision-making, developing community spaces that members of the community will run and manage, and conducting an internal review of processes in the council. The plan is currently under review [Brent Black Community Action Plan | Brent Council](#).
- 3.2.6 The Council adopted a Youth Strategy to support young people from a variety of backgrounds. It was designed and populated/created by young people for young people. Young people decided themselves what the key themes would be and were therefore integral to the design and content of the new Youth Strategy,

Young people told us the things that were most important to them, and this is reflected in the 'Priorities' of the strategy which are:

- Being Heard and Taking Part;
- Reaching Goals and Enjoying Yourself;
- Feeling Good;
- Staying Safe.

Each priority is designed to provide a clear understanding of the objectives using child-friendly language, vibrant colours and positive imagery.

- 3.2.7 Consultation and engagement with residents, stakeholders and the wider community

are integral to the council's decision-making approach and processes, ensuring that a wide and diverse range of views are heard. In 2025 we will review how we engage with partners through the new community engagement framework that will underpin our priorities on "Community Power". This will include refreshing our more established methods of engagement such as the Brent Connects public forum meetings, a series of 'Time to Talk' events and resident attitude surveys.

- 3.2.8 Council, Cabinet and committee meetings are open to the public and most are live streamed. Our complaints outcomes and performance (including Ombudsman finding and compensation paid) are reported to Cabinet as is our performance in respect of requests received under the Freedom of Information Act 2000 and Subject Access Requests under the Data Protection Act 2018. Complaints are also reported annually to the Scrutiny committees.

3.3 Principle C: Defining outcomes in terms of sustainable economic, social and environmental benefits.

- 3.3.1 In March 2023, the Council adopted a new Borough Plan – Moving Brent Forward Together – for the period of 2023 to 2027 agreed by the Cabinet and Full Council. This document includes the corporate objectives of the Council; what the Council - will deliver for and with our communities; and how we will work with partners, such as other public agencies to our shared priorities. Key performance indicators which relate to the targets in the plan, are monitored on a quarterly and annual basis and reported to the Corporate Management Team (CMT) and the Cabinet. Our Balanced Scorecard and a suite of departmental scorecards are also reviewed at regular meetings with lead Cabinet Members. The Borough Plan references other key relevant documents, such as the Community Engagement Framework and the Digital Strategy, the Local Plan, Climate and Ecological Strategy and Joint Health and Wellbeing Strategy.

- 3.3.2 The Borough Plan is available on the staff intranet and is regularly promoted via the Brent Magazine, the council's website, press releases and targeted campaigns. All new and subsequent strategies and plans will be underpinned by the current Borough Plan's themes and priorities. Additionally, our Directorate Service Plans which are developed with the relevant Lead Member(s) are aligned with, and framed around the Borough Plan.

3.4 Principle D: Determining the interventions necessary to optimise the achievement of the intended outcomes.

- 3.4.1 The Borough Plan is focused on Moving Brent Forward Together. It sets out the Council's vision for 2027, emphasising how we will work with others to support people through the cost-of-living crisis, realise our climate change ambitions and harness our diverse range of communities, to name but a few priorities and intended outcomes. It is monitored through quarterly Performance Reports which include our progress against the key performance indicators that drive our activity across the organisation and team plans.

- 3.4.2 The vision sets out how the Council will build on the successes achieved to-date while creating better outcomes for those residents with complex circumstances and remaining flexible to provide support to residents, partners, businesses and communities in response to the cost-of-living crisis. The plan highlights the need to concentrate resources on the things that matter the most, use resources in the most effective way and work better with partners to realise collective ambitions for Brent. The Borough Plan

priorities are aligned to both the demographic and economic needs profile of the borough and the findings from the community engagement activities. A programme of activity is in place to support the delivery of this vision with reports on progress provided regularly to CMT and elected Councillors.

- 3.4.3 In preparing its Borough Plan, the Council adopted several approaches to ensure the Plan captures as many voices as possible from the vast range of communities across Brent. Over 1000 direct responses were received from residents and partners, through a variety of consultation and engagement tools, including:
- Workshops and focus groups with specific communities and groups,
 - Drop-in session in Brent libraries that were open to everyone,
 - Dedicated events with partners,
 - A Borough Plan Survey as well as using other findings from other surveys such as the Residents Attitude Survey; and
 - Forward Together, which are corporate sessions for all staff.
- 3.4.4 The Cabinet consider risks as part of their decision-making role on corporate policies, including the annual budget setting processes, major policy decisions and major projects.
- 3.4.5 The Council's Risk Management Strategy, refreshed in September 2023, sets out the general framework for the identification, assessment and management of risks across the council. It also clearly sets out the roles and responsibilities of key stakeholders and includes the Council's risk appetite statement. Risk management is a key element of the Council's governance framework and is aligned to the Council's corporate objectives and priorities to help ensure that these and resulting outcomes are achieved. All members and officers have responsibility and a role to play in managing risks.
- 3.4.6 The Council's Strategic Risk Register is reviewed and updated biannually and records the risks that are considered by senior management to be of impact and/or likelihood of materialising, and which may have an adverse effect on the achievement of the Council's corporate objectives.
- 3.4.7 The Council has a community engagement network, which brings officers together from across services to ensure engagement is more effectively coordinated. Resources to support this include a community engagement framework which enables it to better understand the complex nature of our communities – the framework created flexible models for engagement and acted as a mechanism to create clear outcomes enabling residents to lead design and make decisions. A consultation best practice guide has also been developed to specifically support consultation activity.
- 3.4.8 The community engagement framework provides details for all staff as follows:
- the standards and values of engagement we offer to residents,
 - guidance on using different methods and techniques,
 - an internal online resource available to staff,
 - best practice advice will be available from the central team, and the
 - collation of existing 'User Voices' to inform council work.
- 3.4.9 The framework provides a toolkit for service areas to enable bespoke development of approaches. These include:
- 3.4.10 **Suitability:** choosing the right level of participation for the work in question is important, both in terms of time and effort in planning and implementation but also in ensuring that

the outcomes of the engagement meet the needs of the work and that expectations of participants are properly managed.

3.4.11 **Accessibility:** Regardless of the level of participation that is decided on, it is essential that it is designed and implemented in a way that gives full consideration to any barriers that might exist for residents. Whether this is ensuring that information can be accessed by all or that people have the means or necessary support to effectively contribute.

3.4.12 **Quality:** All engagement activities should meet a high standard and be fit for purpose, whether that is simply providing residents with information or creating opportunities for full decision making.

3.5 Principle E: Developing the entity's capacity, including the capability of its leadership and the individuals within it.

3.5.1 A full member learning and development programme is in place and there is a comprehensive induction programme for all Councillors within the first few weeks of their election to office. Training on the Council's Code of Conduct for Councillors is compulsory. All Councillors have completed the mandatory training since their election in May 2022 or in subsequent by-elections.

3.5.2 The Council has adopted specific codes of conduct for Councillors involved in planning or licensing decision-making and these Councillors receive additional training in these areas as a pre-condition of their participation. Entitlement to special responsibility allowances for some posts is dependent on mandatory training being attended. An Acceptable Use Policy has been developed which provides for the potential restriction of access to council systems by Councillors who have not completed the mandatory Data Protection training. A bespoke annual learning and development programme is provided for Councillors appointed as Members or Substitutes on the Scrutiny, Planning and Alcohol and Entertainment Licensing Committees. A report on the programme is considered annually by the Audit and Standards Advisory Committee and was considered in March 2025.

3.5.3 We have established new values and behaviours, supported by a refreshed people strategy that spans a three-year period commencing June 2025. This comprehensive plan is designed to drive culture change and develop a resilient, inclusive workforce. Key focus areas include leadership development, creating clear career pathways, career progression, and the implementation of inclusive recruitment practices. The strategy also places significant emphasis on equity, diversity, and inclusion (EDI) to ensure fairness and representation across all levels of the organisation. Additionally, it addresses the evolving impact of emerging technologies, such as artificial intelligence, on roles and working practices. This people strategy also underpins the wider Embrace Change programme, ensuring alignment and coherence across organisational transformation efforts. Through these initiatives, we are committed to fostering an environment where all employees can thrive and contribute to the organisation's long-term success.

3.5.4 In December 2021 the Cabinet agreed an investment of £9.3M in its Digital Strategy – 2022 to 2026. The Digital Strategy underpins the Borough Plan supporting the council and the people of Brent to be digitally confident. From improving our website and customer portal to testing how AI could help to make services more efficient and effective, the Digital programme is ensuring the council remains at the cutting edge of technology and how it's used. In addition, an investment of £4.2M is helping to tackle digital exclusion through a support fund for businesses and the provision of devices for

digitally excluded households in Brent.

- 3.5.5 The Embrace Change Portfolio is designed to harness our strengths, focus our ambitions, and ensure that as an organisation we improve and evolve to tackle current and emerging challenges in meeting the needs of our local communities. The Embrace Change Portfolio is structured into change programmes, change projects, and enablers, underpinned by a number of principles.. At the heart, we are developing a culture that enables us to work much more collaboratively with each other, with partners, and, crucially, with our residents, establishing a real sense of place. There are six change programmes:

- Radical Place Leadership;
- Capacity and Capability Building;
- Resident Experience;
- Adult Social Care Transformation;
- Early Help and Children's Social Care;
- Preventing Homelessness.

- 3.5.5 There are three cross cutting change enablers that support or help to deliver each Programme:

- Organisational Culture and People Strategy;
- Digital, Data and Insight;
- Property and Assets.

3.6 Principle F: Managing risks and performance through robust internal control and strong public financial management.

- 3.6.1 Decision making arrangements are set out in the Constitution. The Council operates a Leader and Cabinet model of decision making. Although some decisions are reserved for Full Council, most are made by the Cabinet or by Committees, sub-Committees or officers. In September 2018, individual member decision-making was introduced in a limited number of areas, supported by a governance process similar to that for Cabinet decisions. Cabinet members received a briefing about their new responsibilities and the related processes. The new process has worked well, and further powers were delegated by the Leader to Individual Cabinet Members from April 2021.
- 3.6.2 All forthcoming Key decisions by Cabinet, Cabinet Members, Cabinet Committees or officers are published in the Council's Forward plan which is published every month on the Council's website.
- 3.6.3 Reports and minutes of those meetings are also published on the Council's website and are available in hard copy (upon request) at the Civic Centre. This includes urgent decisions, which are reported to the next formal meeting of Council.
- 3.6.4 The Council has an Audit and Standards Advisory Committee which usually meets at least six times during the year, with clear terms of reference and an annual work programme for internal audit, investigations and risk management. The Committee has an independent chair with a finance background, a co-opted (independent) member in addition to the chair with a focus on finance related issues and two co-opted (independent) members in relation to member conduct standards issues to help ensure it is effective in performing its duties.

- 3.6.5 In order to enhance the effectiveness of the Committee, it is constituted as an advisory Committee for most of its activities. This has enabled the independent Members to be equal voting members of the advisory Committee.
- 3.6.6 The Council maintains an Internal Audit service that operates in accordance with the published internal audit standards expected of a local authority in the United Kingdom.
- 3.6.7 The Head of Internal Audit (Deputy Director, Organisational Assurance and Resilience) reports to the council's Section 151 Officer and has direct access to the Chief Executive, the Monitoring Officer, the Chair of the Audit Committee and the Chair of the Audit and Standards Advisory Committee.
- 3.6.8 The Audit and Investigations functions play an important role in helping the organisation deliver its strategic objectives by objectively assessing the adequacy of governance and the management of risks; and providing an objective and evidence-based opinion on governance, risk management and internal control.
- 3.6.9 The Council's Strategic Risk Register is reported to DMTs (Directorate Management Teams), CMT and the Audit and Standards Advisory Committee twice a year. The report is written in conjunction with risk leads across the Council, and operationally, risk management continues to be embedded through service-level risk management workshops, targeted training sessions and ongoing support. The process is led by the Council's Deputy Director, Organisational Assurance and Resilience, in consultation with risk owners, DMTs and CMT. The Risk Register articulates the causes and consequences of strategic risks, alongside a summary of controls, and target risk scores. The work of Internal Audit, in accordance with its Annual Audit Plan, is directed towards the key risk areas as identified within the register. The work of Internal Audit therefore seeks to provide assurance to the senior management and members that the Council complies with relevant laws, regulations, internal policies and procedures. Internal Audit provides quarterly updates on delivery of the audit plan to the Audit and Standards Advisory Committee.
- 3.6.10 Robust business continuity management arrangements exist within the Council, with all critical services having business continuity plans in place. An external review of the Council's Emergency Planning function was undertaken in 2023, which identified a number of key areas of focus and improvement to take forward to improve and enhance the Council's resilience arrangements., To this end, a number of significant improvements have been made to the Council's emergency planning and resilience arrangements in-year, including:
- Increasing the capacity of the Emergency Planning and Resilience team to 5FTE;
 - Training additional members of SLT and SMG who have joined the GOLD and SILVER rotas respectively.
 - Delivery of a suite of training and development sessions, including Loggist training
 - Development of a comprehensive and robust action plan to respond to the findings and recommendations raised within the Grenfell Phase 2 Inquiry Report.
- 3.6.11 The Council has a Medium-Term Financial Strategy (MTFS), which is reviewed and updated annually as part of the budget setting process to support the achievement of the Council's corporate priorities. The budget and policy framework outlines the process and timetable to be followed each year when setting the Council's budget. The financial

management framework includes regular budget monitoring reports to departmental management teams, Council Management Team and Cabinet.

- 3.6.12 CIPFA's Financial Management (FM) Code aims to embed sound financial management in local authorities. The Council has reviewed those areas where the FM Code requires compliance with existing codes of practice and has determined that the Council is fully compliant in those areas. Where the FM Code advocates a new approach, such as the use of a formal Financial Resilience Assessment to determine the robustness of the Council's financial position and its sustainability in the long-term, the Council believes that there is considerable benefit to be had from updating its current arrangements to implement the FM Code's recommended approach. The Council is working to put in place a new MTFS and long-term planning process which will cover the whole period of an administration's Borough Plan and beyond. The MTFS and improved service and financial monitoring arrangements will be closely linked to the overarching Borough Plan and the detailed service delivery plans.
- 3.6.13 The Council has two wholly owned subsidiary companies – i4B Holdings Limited (i4B) and First Wave Housing Limited (FWH). The work of the companies is agreed by the Cabinet through the annual business plan. Progress against delivery is reported to the Council as shareholder/guarantor via a bi-annual meeting and there are also regular reports to the Council's Audit and Standards Advisory Committee providing information and assurance on the arrangements the Council, as Guarantor/Shareholder, has in place to oversee the good performance and governance of the two wholly owned companies. Operational performance for the company was scrutinised by the Resources & Public Realm Scrutiny Committee in September 24 and by the Community & Wellbeing Scrutiny Committee in November 24.
- 3.6.14 FWH is limited by guarantee without share capital. The Board of the Company is chaired by an independent voting Director. The Company has a Service Level Agreement (SLA) with the Council to support the Company's operations. Under the SLA, the Council provides corporate services such as: governance services, financial services, and legal services.
- 3.6.15 I4B is limited by shares, providing affordable homes for households who might otherwise be housed in temporary accommodation. The Board of the Company is chaired by an independent voting Director. The Company has a Service Level Agreement (SLA) with Brent to provide a range of services to support the Company's operations such as corporate and financial services; property purchasing, refurbishment and housing management.
- 3.6.16 The Council also has a Shared Technology Service (STS) covering three councils (Brent, Lewisham and Southwark). A Joint Committee has been established to discharge executive functions on behalf of the three boroughs, in so far as they relate to joint activities or areas of common concern in relation to the provision of ICT infrastructure and related supporting services. An officer management board is also in place.
- 3.6.17 The council also has LGA Digital Services, which is a company limited by shares, jointly owned by the Local Government Association (LGA). LGA digital was set up in July 2015 to allow Brent to manage the ICT services for the LGA. Board and governance support is provided by the Council's Communications, Insight and Innovation team. The Board of the Company is chaired by an LGA Director, with remaining members being made up of Council and LGA representatives. Board meetings are held on a quarterly basis.

- 3.6.18 The Council is also a founder member of Locata Housing Services (LHS), which is a private company limited by guarantee set up in 2001 by a group of 5 West London Boroughs and 3 Housing Associations which jointly own LHS. The company was set up to deliver a sub-regional Choice Based Lettings system, which is the system Brent uses to allocate our social housing stock. LHS now supplies IT services to housing authorities and housing associations around the country.

3.7 Principle G: Implementing good practices in transparency, reporting, and audit to deliver effective accountability.

- 3.7.1 Accountability is about ensuring that those making decisions and delivering services are answerable for them. Effective accountability is concerned not only with reporting on actions completed but also ensuring that stakeholders are able to understand and respond as the organisation plans and conducts its activities in a transparent manner. Both external and internal audit contribute to effective accountability.
- 3.7.2 The statutory Forward Plan is published monthly on the internet, and details all key decisions proposed to be made by the Council during the relevant period. Any key decision which is not on the Forward Plan may not be taken within that period, unless the report author is able to demonstrate to the Monitoring Officer and relevant members that urgency procedure requirements are met and, where required under Standing Orders, appropriate agreement of the Chief Executive or the relevant Chair of Scrutiny is obtained. All urgent decisions taken are monitored by the Monitoring Officer and regular reports taken to Full Council.
- 3.7.3 In addition, defined categories of decisions by officers which are not key decisions are required to be published.
- 3.7.4 Members are required to make sound decisions based on written reports which are prepared in accordance with the report writing guide and have to be cleared by both Finance and Legal. The Cabinet receives a briefing concerning the most important upcoming decisions at the Policy Co-ordination Group, which is the Cabinet's regular meeting with the Corporate Management Team, and Cabinet members can ask detailed technical questions of officers about those issues and other matters due to be determined by Cabinet. All reports must be reviewed and signed-off by, or on behalf of, the Corporate Director of Finance and Resources and the Corporate Director of Law & Governance (or from 1 April 2025 the Director of Law) and contain clear financial and legal advice to help members arrive at decisions.
- 3.7.5 In accordance with the Local Government Act 2000, the Council has mechanisms in place to allow the effective, independent and rigorous examination of the proposals and decisions by the Cabinet. These mechanisms involve the Scrutiny process including call-in. The conduct of the Council's business is governed by the Constitution, which includes Standing Orders and Financial Regulations.
- 3.7.6 All members and chief officers are required to complete an annual statement relating to third party transactions. A register of members' interests, which is updated by members, is maintained and published on the Council's website.
- 3.7.7 The Brent Council Code of Conduct for Members, reviewed in 2022, defines the standards of conduct expected of elected representatives, based on the Nolan principles of selflessness, integrity, objectivity, accountability, openness, honesty and leadership.

Complaints under the Code are reported to the Audit and Standards Advisory Committee as are details of declared Gifts and Hospitality received by members and the mandatory training they have undertaken.

3.7.8 In addition, the following codes, protocols and systems are well established within the Council. All are regularly reviewed and updated to account for developments in governance arrangements and changes in local government. These include:

- a declaration of interest process for members and officers as described above,
- the operation of organisation-wide performance appraisal and employee development schemes,
- a corporate complaints procedure in place in line with Ombudsman good practice requirements; and
- Whistle-blowing, anti-fraud and anti-corruption / bribery policies which are publicised in compliance with the national transparency agenda which includes the publication of senior officers' remuneration on the Council website.

4 Review of Effectiveness

4.1 The Governance Framework is subject to on-going review as part of the everyday business of the organisation. The reduction in resources within the public sector has increased the attention on ensuring that governance frameworks remain efficient and effective. The Council also has responsibility for conducting, at least annually, a formal review of the effectiveness of its governance framework including the system of internal control. This includes group activities where the activities are significant.

4.2 The review of effectiveness is informed by the work of the Corporate Directors and senior managers within the council who have responsibility for the development and maintenance of the governance environment, the work of the annual report from the Deputy Director of Organisational Assurance and Resilience and also by comments made by the external auditors and other review agencies and inspectorates, for example Ofsted.

4.3 The Council's review of the effectiveness of its system of internal control is informed by:

- Annual Assurance Opinion of the Deputy Director of Organisational Assurance and Resilience,
- Performance against targets,
- External Audit outcomes,
- Internal Audit outcomes,
- Scrutiny arrangements,
- Reports from inspectorates,
- Previous Performance information,
- Risk management arrangements,
- Information governance arrangements; and
- A review of the previous year's Annual Governance Statement.

4.4 The process that has been applied in maintaining and reviewing the effectiveness of the governance framework is described below:

4.5 Performance Management

4.5.1 The Council has developed a Performance Management Framework and balanced scorecard approach. These scorecards are regularly reviewed by CMT and PCG and have been rolled out at a directorate level, supporting regular discussions on the most

up to date performance and finance indicators in monthly meetings with Cabinet Portfolio holders. Members play a regular role in performance management, providing challenge to officers. Performance is reported quarterly to Cabinet via the Quarterly Performance report.

- 4.5.2 Led by the Corporate Performance team in the Communications, Insight and Innovation department, this approach has strengthened the strategic alignment of the Council's performance monitoring and reporting and demonstrates an increased focus on performance monitoring and on using data to drive improvements in delivery of services.

4.6 Management

- 4.6.1 The Corporate Management Team meets fortnightly to oversee the operations of the organisation and receives reports for both challenge and comment prior to formal decision-making processes. Reports will also be presented to provide the required assurances regarding the strategic risks the organisation faces. These include periodic reports from the groups and boards established in the identified certain areas such as the Change Programme; Health and Safety; IT Governance; Business Continuity; Corporate Risk, Information Governance. The role and contribution that these groups make is reviewed on an on-going basis and is being subject to a specific detailed review in 2023/24 and 2024/25.

4.7 The Cabinet

- 4.7.1 The Cabinet makes key decisions in accordance with the Budget and Policy Framework. It has regular joint meetings with the Corporate Management Team to consider the Council's policy priorities and its linkages with the medium-term financial strategy and to receive operational and performance information .

4.8 Scrutiny Committees

- 4.8.1 The Council has two Overview & Scrutiny Committees, these are the Community and Wellbeing Scrutiny Committee and the Resources and Public Realm (RPR) Scrutiny Committee.
- 4.8.2 Each of the Committees has discrete responsibilities for scrutinising the Council's Executive (Leader and Cabinet) and covers different parts of the local authority's services. Policy is reviewed by reports discussed at Committee as well as task groups set up to review a particular issue. In addition, a Budget task group, which is chaired by the chair of RPR Scrutiny Committee is established each year. In addition, there is scrutiny of Cabinet members and decision-making at individual Committee meetings of the two Committees. The two Committees have a statutory role in scrutinising policy and decision-making of external organisations and agencies.

4.9 The Audit and Standards Advisory Committee

- 4.9.1 The Audit and Standards Advisory Committee met eight times during 2024/25 and has considered the work of Internal Audit during the year, the annual report and opinion of the Deputy Director of Organisational Assurance and Resilience and the External Auditor's Annual Report. The Committee monitors the effective development and operation of risk management. It reviews the annual statement of accounts specifically to consider whether appropriate accounting policies have been followed and whether there are concerns arising from the financial statements or from audits that need to be brought to

the attention of the Council. The Audit and Standards Advisory Committee also considers the Treasury Management Strategy and the Annual Investment Strategy and reviews treasury management activity during the year. The Committee is also responsible for a number of matters related to member conduct and has received reports concerning these during the year.

- 4.9.2 Those matters which come before the Committee which require a formal exercise of Council functions (e.g. approval of accounts) will to be made by the Audit and Standards Committee, which will consist of the Councillor membership of the Audit and Standards Advisory Committee.
- 4.9.3 An exercise has been undertaken to consider the complementary roles of the RPR Scrutiny Committees and the Audit and Standards Committees and how they can best work together. Meetings have taken place between the Chairs of these bodies with a view to considering common issues and co-ordinating forward agenda planning to ensure issues are considered in the appropriate meeting and relevant intelligence is shared between them.
- 4.9.4 Following CIPFA's publication of its new guidance for Audit Committees in the Autumn of 2022, the Audit and Standards Advisory Committee conducted a review of its own effectiveness, the findings of which were reported in March 2023. The self-assessment questionnaire asked Members to consider the Committee's effectiveness across 40 separate questions (including sub-questions) covering a number of areas. Overall, the survey results indicated that the Committee is adequately fulfilling its duties across all areas set out and prescribed within the CIPFA guidance. However, a number of areas were identified where minor improvements were required to further enhance the effectiveness of the Committee. These included the preparation of an annual training plan for Committee members, the preparation of an Annual Report that provides assurance to all those charged with governance that the Committee fulfils its purpose and can demonstrate its impact, and, within that report, an evaluation of whether and how the Committee is adding value to the organisation. These actions were successfully implemented in 2024.
- 4.9.5 The Committee is also in the process of undertaking a further evaluation for 2024-25, using the 'ten questions for audit committees' questionnaire provided by the LGA. Outcomes are being evaluated and will be reported to the Committee in June 2025.

4.10 Brent Assurance Board

- 4.10.1 This Board was set up in 2023 to replace the Corporate Governance Group but is wider in its remit and stronger in its focus on bringing together the golden triangle of the Council's statutory officers, namely the Head of Paid Service, S151 Officer and the Monitoring Officer.
- 4.10.2 The Brent Assurance Board regularly receives written reports on a range of governance and assurances related matters to ensure the statutory duties of the Council are effectively discharged, efficiently implemented and any issues/risks/lessons/good practice are shared. The membership of the Board is the Council's three corporate Statutory Officers together with the Deputy Director of Organisational Assurance and Resilience. Together they oversee, scrutinise and hold to account the discharge of the statutory duties of the Council on matters such as risk management and audit assurance, Information governance, cyber security, Whistleblowing and Corporate

Complaints; as well as Safeguarding, Health and Safety (including Corporate Landlord obligations); and governance matters to name a few.

4.11 Internal Audit

- 4.11.1 The Council receives assurance about the effectiveness of the corporate governance, internal control and risk management arrangements from the work of Internal Audit which provides independent and objective assurance across the whole range of the Council's activities. It is the duty of the Deputy Director of Organisational Assurance and Resilience to give an opinion (as the Council's Head of Internal Audit), at least annually, on the adequacy and effectiveness of internal control within the Council. This opinion has been used to inform the Annual Governance Statement.
- 4.11.2 The Deputy Director of Organisational Assurance and Resilience produces an annual report which will be presented to the Audit and Standards Advisory Committee. This report will outline the key findings of the audit work undertaken during 2023/24.
- 4.11.3 An External Quality Assessment (EQA) of the Internal Audit Service was conducted during Q4 2022/23. It concluded that the Service conformed to the Public Sector Internal Audit Standards. The outcome reflected a professional and successful Internal Audit service commanding a good level of respect and credibility across the Council and seen as a key part in supporting and developing good governance within the Council.
- 4.11.4 It is the opinion of the Deputy Director of Organisational Assurance and Resilience that, considering all available evidence from audit work undertaken in 2023/24, there is reasonable assurance over the adequacy and effectiveness of the Council's overall framework of governance, risk management and control during the financial year 2024/25.
- 4.11.5 In determining the annual opinion, the Deputy Director of Organisational Assurance and Resilience also considered any key themes of issues emanating from audit work undertaken in 2023/24. Four improvements were identified

1) Implementation of audit actions

The 2023–24 Head of Internal Audit opinion highlighted a need to improve the timely implementation of audit actions, with the completion rate falling to 46%. This concern was also raised by External Audit and the Corporate Peer Challenge. In response, the Council included a commitment to address this in its 2023–24 Annual Governance Statement.

Performance has improved in 2024–25, with 67% of actions completed within their original deadlines. The implementation rate for high-risk actions also rose, from 48% to 64%. While this marks positive progress, further improvement is needed to meet the Council's 75% target. Therefore, this remains a key area for development.

2) Gaps in 'second line' responsibilities (oversight)

The Head of Internal Audit has previously reported that where weaknesses in the Council's governance, risk management, and control framework were identified, they were typically found within the Council's second line of defence—rather than in the operational effectiveness of controls themselves. Although the Council has

made several improvements to its monitoring and reporting arrangements in recent years, the second line remains an area of concern. Internal Audit continues to identify gaps in oversight, particularly at the directorate and departmental levels. This recurring theme has been highlighted in several audits, including the Health and Safety Compliance (FLAGE) and Performance Management reviews. Given the increasing complexity and scale of risks facing the Council, it is now more critical than ever to ensure that oversight arrangements are not only in place but are consistently effective, timely, and embedded across all levels of the organisation. Robust second-line arrangements must ensure that the right risks are being monitored, the right information is being reported, and the right actions are being taken—at the right time—to protect the Council and its residents.

3) Housing compliance

In May 2025, the Council voluntarily referred itself to the Housing Regulator regarding its previous approach to managing building risk assessment actions. The self-referral highlighted that within the last year, around 12,500 actions arising from fire risk assessments had been closed. Following a spot check, LB Brent identified that where actions had been closed, evidence of the completion of the actions was not available in all instances and that some actions had not been completed at all. While the Council confirmed that necessary checks had been completed across its estates, weaknesses in the follow-up and management of resulting actions were identified—an issue that was previously raised by Internal Audit in earlier reviews of housing compliance. Through engagement with the Council, the regulator found serious failings in its ability the necessary requirements and that these failings have negatively affected service outcomes for tenants. While this matter is being address via the regulator and an improvement plan, Internal Audit will be monitoring progress against this issue very closely in 2025-26.

4) Financial Sustainability Arrangements

While no formal improvement action is being raised in respect of the Council's financial sustainability arrangements, the Head of Internal Audit recommends that the Council places continued emphasis on the recommendations made by External Audit and the Corporate Peer Challenge. This will help ensure the Council maintains its strong track record of financial stewardship and continues to deliver sustainable savings.

4.12 Other Audit Considerations

4.12.1 Enhancements

Internal Audit did not review all of the wider governance mechanisms described in this report however there was no evidence to suggest any deficiencies in the arrangements described by senior stakeholders in this statement.

- 4.12.2 Furthermore, the Deputy Director of Organisational Assurance and Resilience is satisfied that the Council's framework of governance for the year ended 31 March 2024 complies in all material respects with guidance on proper practices as set out the CIPFA/SOLACE publication "Delivering Good Governance in Local Government (2016)".

4.13 External Audit

- 4.13.1 Grant Thornton UK LLP is the Council's appointed external auditor. As well as an

examination of the Council's financial statements, the work of the Council's external auditor includes an assessment of the arrangements the Council have in place to deliver value for money in its use of resources. The external auditor is required to report on the Council's arrangements under specified criteria, which are financial sustainability, governance and improving economy, efficiency and effectiveness.

- 4.13.2 The Council ensures that it provides timely support, information and responses to external audit and properly considers audit findings and recommendations.
- 4.13.3 It is worth noting that as part of the external audit of the Council's 2024/25 statement of accounts, the report from the external auditor on value for money found no significant weaknesses in the Council's value for money arrangements and identified a number of improvement recommendations. All of the recommendations have been accepted and/or implemented.

Although no significant governance issues have been identified, the following improvement actions have been identified as a result of the annual review of governance to further enhance our governance arrangements:

4.14 Risk Management

- 4.14.1 The Council managed its risks during 2023/24 in accordance with the Risk Management Strategy. The Corporate Management Team formally considers strategic risks, with twice yearly reports also presented to the Audit and Standards Advisory Committee. Risk management is a key element of the Council's governance framework and is aligned to the Council's corporate objectives and priorities to help ensure that these and resulting outcomes are achieved. Enhancements continue to be made to the Council's risk management framework, where deemed necessary and appropriate to do so. As part of the enhancements made in 2023/24, the Council reviewed and enhanced the Risk Management Strategy, which now provides a more robust framework for managing risks, and includes the Council's risk appetite statement. A number of enhancements were also incorporated into the Strategic Risk Register in 2024, including a new risk relating to community cohesion.

4.15 Developing Capacity

- 4.15.1 The Council has operated procedures during the period covered by this statement to ensure the training needs of staff are assessed against core competencies and any key training needs are met. Additionally, the Council has provided and makes available ongoing training opportunities to Councillors to enable them to effectively fulfil their duties.

4.16 Engagement

- 4.16.1 Regular consultation is also undertaken with residents to ensure that the council makes decisions based on resident requirements and feedback regarding general provision and quality of service.

5 Significant Governance Issues

- 5.1 The CIPFA/SOLACE Governance Framework identifies the following as issues that constitute significant governance issues:

- the issue has seriously prejudiced or prevented achievement of a principal objective,
- the issue has resulted in a need to seek additional funding to allow it to be resolved,
- the issue has resulted in significant diversion of resources from another aspect of the business,
- the issue has led to a material impact on the accounts,
- the Audit Committee, or equivalent, has advised that it should be considered significant for this purpose; or
- the Head of Internal Audit has reported on it as significant in the annual opinion on the internal control environment.

During 2024/25, no significant governance issues were identified.

However, the following should be noted:

5.2 Corporate Peer Challenge

- 5.2.1 Brent invited the Local Government Association (LGA) to undertake a Corporate Peer Challenge (CPC) in January 2025.
- 5.2.2 A CPC is a highly valued improvement and assurance tool that is delivered by the sector for the sector. It is available, at no cost, to all English councils wherever they are on the improvement spectrum and involves a diverse team of experienced peers comprising senior local government councillors and officers.
- 5.2.3 The peer team undertake a review of key finance, performance and governance information and then spend up to four days at the council to provide robust, strategic, and credible challenge and support.
- 5.2.4 We have developed an action plan in response to the CPC's recommendations, which serves as a whole organisation product, where all staff will work together to deliver the recommendations. Delivery of the action plan is the collective responsibility of all council officers, with lead officers owning specific actions and milestones. The LGA will return to Brent in November 2025 for a progress review visit, including opportunities for council officers and Members to share successes and challenges with peers, and fully review progress against the CPC recommendations.
- 5.2.5 some of the recommendations are as follows:

Breaking down Silos: requires collaborative behaviours with a genuine sense of curiosity which needs to be modelled by the CMT, Senior Leadership Team (SLT) and all managers to effectively break down silos,

Change and Transformation Programme: involves advancing the change and transformation programme and developing evidence-based business cases that deliver the spending reductions

Addressing the temporary accommodation crisis: this recommendation will require the whole-organisational ownership and a collective response to tackle both the immediate pressures and the underlying systemic issues arising as a result of the crisis.

Voluntary and Community Sector (VCS) consider a refresh of the Compact/partnership strategy to align shared priorities and values.

Shared vision for the future of Brent: work with partners across the public sector, VCS and private sector to co-create a shared, medium- to long term vision for Brent that goes beyond the council's immediate priorities.

Community and Tenant Engagement: refresh the council's approach to community engagement by conducting a comprehensive review of all existing engagement methods.

Housing allocations and waiting list: review and update the council's Housing Allocations Policy and undertake a re-registration exercise for households on the waiting list to obtain an accurate, up-to-date picture of housing needs across Brent.

Adults and Children's Services: seize the opportunity for service transformation within both Adults and Children's services, leveraging the current position of below average overspends.

EDI: refresh the council's EDI priorities to ensure that activity is aligned with cultural competency/appropriateness and improving outcomes for residents. Ensure that there is a broader focus on EDI across all underrepresented groups.

Further recommendations have been highlighted in the action plan and financial recommendations have been set out in 5.2.7 below.

5.2.6 We are making progress towards delivering actions set out in the action plan. Full details of the action plan can be found using the following link:
[07b.+Appendix+B+--+Corporate+Peer+Challenge+Action+Plan.pdf](#)

5.2.7 The Corporate Peer Challenge also found that Brent has a strong record of financial stewardship, demonstrated through the successful delivery of savings and effective financial controls. However, rising demand pressures – particularly in temporary accommodation and social care – have made delivering balanced budgets increasingly challenging. Large overspends experienced over the last three years have been managed through the use of reserves, but this approach has led to a significant depletion of general fund reserve levels in recent years. As a result, the council is now exposed to a higher degree of risk, with external auditors highlighting this as a significant financial weakness.

5.2.8 Therefore, there are three financial actions agreed as part of the Corporate Peer Challenge to develop a long-term financial strategy that aligns with the Council's corporate priorities and the embrace change programme, to rebuild reserves to a sustainable level, and to enhance its organisation grip on issues such as debt recovery and council tax collection rates.

5.3 Procurement Peer Review

5.3.1 A peer review of Procurement was undertaken in January-March 2025 in the context of significant external changes such as the implementation of the Procurement Act in February 2025, the Council's Change Programme and Grant Thornton's Audit Findings Report dated Feb 2025. There was also a desire to ensure the service was fit for purpose and operating most effectively. As a result, a procurement improvement programme was established in May 2025 to respond to the review recommendations.

5.4 Referral to the Housing Regulator

- 5.4.1 Under the RSH Safety and Quality Standard the Council as Landlord is required to meet all legal requirements relating to health and safety in the homes and communal areas we own and manage.
- 5.4.2 Following a self-assessment of data held on True Compliance (the IT system in use by the service for logging and monitoring building safety compliance), on the week commencing 31st March 2025 concerns regarding the management of fire safety were identified. In particular, it was found that actions required as a result of Fire Risk Assessments (FRA's) were being closed as complete without adequate evidence of completion being logged. Similar concerns have also been identified across water safety and asbestos workstreams. In addition to as part of the response, the council was asked to provide information on its stock condition data. The council reported that it had stock data on 95% of its homes, however it does not hold recorded survey information on over 50%.
- 5.4.3 Following this findings referred to in 5.4.2, the service followed appropriate co-regulation processes and made a self-referral to the Regulator, with a judgment of a C3 rating received in May 2025.
- 5.4.4 The service has already started working with an external building safety consultant with experience of working in this area, alongside the Regulator, to carry out a deep dive into our compliance workstreams and to support the development of an improvement plan moving forward.

5.5 Improvement Action Plans

5.5.1 Improvement Action Plan 2024/2025

The table below highlights the planned improvement actions undertaken by council officers during the year 2024/2025. The second column reflects the improvements that have been made during that year.

Improvement Action	Progress on Improvement Plan	Owner
Better use of the Member Hub to ensure that Members are regularly kept up to date with developments and have easy access to necessary documents stored in one central place	Council officers have increasingly tried to promote this amongst Members and direct them to use it via the Members' Bulletin etc. Unfortunately, uptake continues to be limited to a few councillors. There are however new initiatives, i.e. the SPI which will be used by Cllrs to access more specific ward information. Council Officers also continue to keep Members up to date and informed via the bulletin, group emails, the MLD Steering	Deputy Director, Democratic & Corporate Governance

	Group and training schedules.	
Improvement Action	Progress on Improvement Plan	Owner
Quarterly monitoring and reporting of reports (to Council) that are submitted after the given deadline	These are reported as part of the monthly/quarterly KPIs with the appropriate narrative to accompany and provide an explanation for the reasons. Numbers have remained relatively constant with departments reminded of report deadlines etc to ensure that these are adhered to. This is also discussed periodically at the Brent Assurance Board meetings (where requested).	Deputy Director, Democratic & Corporate Governance
To further enhance our approach to risk management by assigning clear roles and responsibilities for the implementation of mitigating actions, scrutinising mitigating actions to ensure they have had the anticipated impact and transparently reporting on where mitigating actions have been both successful and unsuccessful.	<p>A new addition to the September 2024 iteration of the Strategic Risk report was an enhanced action plan for each of the fourteen strategic risks. In prior iterations, risk owners had outlined actions they intended to implement to further address the risk, however, there was previously no system to follow-up and track these actions and whether they have had a positive impact on managing and mitigating the risk, or not. The enhanced action plan now includes a section to follow-up on actions that were previously outlined and assigns an action owner for increased accountability.</p> <p>This addition was made following recommendations from the March 2024 LGA report, which advised on best practices for councils facing financial challenges. The report shared learnings from five councils with experience of financial or governance challenges, which either led to a S114 notice or capitalisation direction.</p>	Deputy Director Organisational Assurance & Resilience

Improvement Action	Progress on Improvement Plan	Owner
Development of a programme of coaching, mentoring and leadership development with a focus on EDI to support the EDI strategy.	The Council now has Comprehensive People Strategy as well as a training programme in relation to EDI for the Council staff.	Director of Human Resources and Organisational Development
Embed new performance framework and balanced scorecard approach at corporate and directorate level.	<p>We now have a corporate balanced scorecard and directorate level versions which are regularly discussed in Lead Member meetings.</p> <p>Overall performance and the scorecard are reported quarterly to CMT and PCG and Cabinet received a quarterly update on performance against the borough plan.</p> <p>We are continuing to refine and improve our performance framework in response to feedback, for example from the LGA Peer Challenge and to ensure that key KPIs are visible in the corporate scorecard.</p>	Director of Communications, Insight & Innovation

5.5.2 Improvement action plan for 2025/2026

The table below reflects the Improvement areas to be implemented by officers during 2025/2026

Improvement area 2025/26	Owner
Work with the Regulator of housing to undertake Any actions required to ensure the actions relating to the Fire Risk Assessment, water safety and asbestos have been undertaken where required.	Acting Corporate Director, Residents & Housing Services
Officers will continue to develop and embed the performance framework across the council including incorporating recommendations from the Corporate Peer Challenge.	Director of Communication Insights and Innovation
Deliver the Procurement Improvement Programme In response to the recommendations contained within the Procurement Peer Review.	Director of Commissioning Capacity Building and Engagement
Officers have developed a comprehensive Programme focusing on coaching, mentoring, and Leadership development with a particular emphasis on equity, diversity, and inclusion (EDI) to bolster our EDI strategy. A new people strategy has been launched, accompanied by a detailed action plan. This strategy spans a three-year period and is designed to review and implement new leadership programmes alongside a comprehensive programme of EDI activities.	Director of Human Resources & Organisational Development

6. Conclusion and Evaluation

- 6.1 As Leader and Chief Executive, we have been advised of the implications of the results of the review of the effectiveness of the Council's governance framework. Our overall assessment is that this Annual Governance Statement is a balanced reflection of the governance environment and that an adequate framework exists within Brent Council to ensure effective internal control is maintained. We are also satisfied that there are appropriate plans in place to address any weaknesses and ensure continuous improvement in the system of internal control.

Signed:

.....
Cllr Muhammed Butt
 Leader of the Council

.....
Kim Wright
 Chief Executive
