

**Supplementary statement to Brent Health and Wellbeing Board's
Pharmaceutical Needs Assessment**

Date Pharmaceutical Needs Assessment published – September 2025

Date Supplementary Statement issued – September 2026

The Regulations state that Supplementary Statements can provide updates to the Pharmaceutical Needs Assessment only in relation to changes in the availability of pharmaceutical services. Supplementary Statements cannot provide updates on pharmaceutical need. This can only be achieved through a review of the Pharmaceutical Needs Assessment. The following pharmaceutical services currently contained within the Pharmaceutical Needs Assessment have been identified as needing updating. This updated information supersedes some of the original information within the PNA and should be read in conjunction with that document.

Consolidation of two pharmacies into one

The following pharmacy has closed as a result of a successful consolidation application:

Chana Chemist (FK263): 138 High Road, Willesden Green, London, NW10 2PJ.

The pharmacy provided all the essential services and the following advanced pharmaceutical services: Pharmacy First, Flu Vaccination Service, Pharmacy Contraception Service, Hypertension Case-Finding Service, New Medicine Service, Lateral Flow Device Service.

These services were provided at the following times: Monday to Friday from 09:00 to 19:00; Saturday from 09:00 to 18:00; Sunday closed.

The pharmacy closed on 21 September 2026.

It is the opinion of Brent Health and Wellbeing Board that the removal of this pharmacy from the pharmaceutical list does not create a gap in pharmaceutical services provision that could be met by a routine application (a) to meet a current or future need for pharmaceutical services, or (b) to secure improvements, or better access, to pharmaceutical services.
