Well. We’ve made it easy for you to recycle...

It’s too confusing!

Let’s SORT IT!
Food waste recycling

Right stuff, right bin!

You can recycle all your food waste, both cooked and uncooked:
- Eggs and dairy products
- Fruit and vegetables
- Meat, fish and bones
- Tea bags and coffee grounds
- Bread, pasta and rice
- Plate scrapings

STEP 1
Line your kitchen caddy with a compostable bag or newspaper

STEP 2
Put your food waste in the caddy

STEP 3
Once full, tie the compostable bag and put in the outdoor food waste bin

Food waste must not be put in plastic bags

Recycling:
- Glass bottles and jars
- Food tins, drink cans and aerosols
- Food and drink cartons e.g. Tetra Paks
- Plastic bottles
- Paper and cardboard
- Plastic containers and food trays

Please rinse containers before recycling them.
If in doubt, leave it out!

NO plastic bags in your recycling bin
What about pizza boxes or plastic trays with food on them?

Only clean cardboard please. Plastic trays can be put in the recycling bins after being rinsed.

How clean is clean – do we have to wash out everything perfectly?

A good rinse to remove most contents is fine.
